

In view of frequent absentees and lot of changes in the scientific program at the last moment (When it becomes very difficult to find a replacement speaker), the following changes were proposed and accepted in the time schedule with respect to scientific program:

- The member should communicate to Chairman Scientific committee regarding any changes, with name and details of alternate speaker, at least 2 Months prior to the date of commencement of the annual Conference – otherwise No changes can be made in the Program Book (Since Printing takes 1 month time and courier takes another 1 month)
- If members communicate (with name and details of alternate speaker) within 1 month prior to commencement of conference – Changes can be made ONLY in Ready Reckoner / Website
- Changes received within one month prior to the commencement of the conference shall not be accepted.
- Any speaker delivering a topic whose name is not in the scientific program of the session: No Podium Presence in Next conference.
